 Poacher 2026

Poacher 2026 - April subcamp newsletter

Welcome back Asia! Our subcamp team have been working hard behind the scenes to create an unforgettable experience! Each group will soon be assigned a country, and the countdown will really begin!

Action for you all!

With your help, Asia will be the most dynamic, inspiring, and culturally rich home at the Jamboree! Soon you'll be able to start planning your own gateways, lanterns, floats, and dress up for the closing ceremony to create a vibrant, unforgettable celebration together.

For our prayer flags we'd like each group to bring at least one (please feel free to bring more!) representing their country measuring 21 x 29 cm. Fabric would be ideal as it will last longer!

Activities on the subcamp

During the week, each of the subcamps will be providing low and quiet impact activities.

We've got a whole host of activities planned for those seeking a quieter experience throughout the week.

From a games evening featuring Pokémon, Pretwa and Mahjong to crafts such as Oragami and zen gardens our alternative evening program is designed to be a quiet, safe space that individuals (leaders included!) can retreat too!

Virtual Calls

Please find the links below following the Group virtual calls in March and April. If you didn't attend, please review these, as they might answer some of the questions you have.

[Here are the slides from the virtual calls](#)

Read all the FAQs from the calls

Reminder - Setting up on Friday

Group Leaders will be able to set up their camping area on Friday 31st July, from 3pm to 9pm. These will include setting up your central tents i.e cooking and eating tents. No sleeping tents should be set up as these should be done on Saturday with the participants.

Gas

Please note that we will not have gas available on site to purchase. Therefore, if you require gas, please find stockists in the area here:

Flogas - [stockists](#)

Calor - [stockists](#)

Cooking and eating

The Showground is used by animals; as such everyone should be seated on chairs to eat.

ALL cooking MUST be done on gas, No open fires are permitted on the showground. Equipment should not be left unattended when in use. All gas cylinders should be located at least one metre away from the cooking area and the supply disconnected when not in use. Adequate fire precautions should be provided by each group. As a minimum groups should have a fire extinguisher and fire blanket available in the cooking area.

Water facilities

All water on the Lincolnshire Showground is safe to use including the piped supply that runs around the Subcamps and the water on the outside of the toilet blocks.

The water in the toilet blocks is for hand washing only and is not to be used for washing or cleaning of pots etc. The toilet floors can become very slippery when wet, please ensure that everyone takes great care.

All groups should bring with them washing facilities to use on their own campsites, personal washing is not allowed in the toilet blocks.

Disposal of water should be done at the designated sites please. Please do not throw waste water into the hedges or boundaries. This creates a health hazard.

We're so excited to welcome you to Camp Asia — home of the best continent!

Get ready for an unforgettable experience filled with energy, adventure, and amazing memories.
